PERSONAL CALLS

Government telephones are provided for official use only and ARE NOT TO BE USED FOR MAKING PERSONAL CALLS (Use public telephones for personal calls)

TRANSFERRING CALLS

To transfer an incoming call from the public to another number depress the handset plunger for one second and release. Wait until the operator comes in on your line, then request her to transfer the call.

Thru-Dial calls originating from other government agencies of the Inter-departmental Dial System (IDS) cannot be transferred.

TIPS FOR BETTER TELEPHONE SERVICE

1. Government telephones are extremely busy in the afternoon between 2 p.m. and 5 p.m. Try to schedule important calls at other times during the day.
2. If you obtain information from an operator, record this information for future reference.
3. If the party you are calling is busy, leave your name and number and have the party return your call rather than "HOLD" the line. This will free the equipment for other calls.
4. Discourage prolonged conversations to relieve busy network conditions.
5. Attempt to answer all calls on the first ring. Give priority to the long-distance caller.
6. Do not use the commercial long-distance network for calls outside the 50¢ limit area. These calls greatly increase your agency's bill. Use the Federal Telecommunication System (FTS) and save the taxpayer's money.
7. Use IDS codes for making inter-government calls. Each local call prefixed by 9, except between Government Centrex, costs the Government 5¢.

SOLICITING, VENDING AND DEBT COLLECTION

Soliciting alms and contributions, commercial soliciting and vending of all kinds, displaying or distributing commercial advertising, or collecting private debts in or on GSA controlled property is prohibited. This includes the distribution of materials such as pamphlets, handbills, flyers, catalogs, etc., by departmentals employees to co-workers for the sales of various commercial products to fellow employees.

FREQUENTLY CALLED NUMBERS

This space is provided for listing the telephone numbers you use most frequently

NAME	AGENCY	BLDG.	ROOM	NUMBER

EMERGENCIES

IN THE EVENT OF AN EMERGENCY REQUIRING POLICE ASSISTANCE, I.E., FIRE, BOMB THREAT, ACCIDENT, THEFTS, ETC., THE GSA FEDERAL PROTECTIVE POLICE CONTROL CENTER SHOULD BE IMMEDIATELY CONTACTED AT THE FOLLOWING NUMBER:

472-1111

Fire or Other Evacuation

An employee discovering a fire will immediately summon assistance by activating the nearest fire alarm box located on corridor walls or by telephoning the FPS Control Center.

Buildings occupied by DHEW are equipped with gongs or bells to signal emergency evacuation. When the evacuation alarm is heard, employees will proceed immediately to the nearest stairwell and down the stairs to the first floor, exiting the building by the closest exit.

Employees will be assisted by members of the Facilities Self Protection (Warden) Organization who are posted in corridors, stairway entrances, exits, etc.

Elevators or escalators are not to be used except by the fire department or members of the Wardens Organization.

Civil Defense

Civil Defense shelter areas in DHEW occupied buildings are marked and are normally located in interior corridors.

Employees will proceed immediately to shelter areas in the event the Enemy attack warning signal is sounded. This signal is explained on the back cover of this book.

The Office of Investigations and Security, Office of the Secretary, maintains liaison with all law enforcement agencies. This office will provide assistance and information to employees in all matters pertaining to security, investigations concerning fraud, facilities self-protection and other investigative and security matters.

REPORTING DIRECTORY CHANGES

INFORMATIONAL SECTION Revisions and/or suggestions affecting this section should be forwarded to the Division of Administrative Services, OS, Room 4440, HEW North Building.

ALPHABETICAL SECTION Additions, changes and deletions to this section should be submitted to the Department Locator, Visitor's Information Center, Room 1528 HEW North Building. These actions should be submitted through your agency telephone representative on Form HEW-91 (Rev. 4/74) "Locator File and Telephone Directory Additions, Changes and Deletions" in accordance with Chapter 8-70, General Administration Manual. PHS Offices route completed HEW-91's to Administrative Services Center, Parklawn, Room 5-85.

ORGANIZATIONAL SECTION Revisions affecting this section are furnished to the Division of Administrative Services, OS, Room 4440 by designated Agency/Office Coordination prior to each printing of the Directory in accordance with Chapter 8-70 of the General Administration Manual.

Any discrepancies noted in the Directory should be reported to your AGENCY TELEPHONE REPRESENTATIVE.

Agency	Telephone Representative	Telephone Extension	Administrative Code Representative	Telephone Extension
Education Division	Mrs. Hattie Daniels	24-57991	Mr. Ellsworth Sacks	24-58314

Centrex Service

All government agencies in the Washington, D.C. area are being converted on a phased basis to the Centrex telephone service. DHEW and most other agencies are now on Centrex. The IDS code cannot be used between two centrex telephones, and the IDS system will be eliminated upon completion of the conversion.

Dial only the five-digit extension number to call agencies which are on the same dialing zone. There are some agencies which are on the 655-4000 switchboard but are in other than Dialing Zone A, and it is necessary to dial 9 plus the seven-digit number to reach these agencies. Dial 100 for information on agencies served by the 655-4000 switchboard.

Interdepartmental Dial System (IDS)

The IDS code numbers should be used for calls to other agencies unless they are also on Centrex service. The agencies and IDS code numbers are listed in this directory. Agencies marked with an asterisk (*) do not have thru-dialing, and an operator connects the caller with the extension number.

If extension is known, dial the IDS code plus the extension. If the extension is not known, dial the IDS code plus "O" for the information operator except as shown below.

NIH Code 14, Dial 14-62474

USMC Quantico, Va.
Code 136, Dial 136-2121

U.S. Navy, Dahlgren, Va.
Code 1232, Dial 1232-8291

Dept. of Interior
Code 183, Dial 183-70

Calls to Agencies Not Equipped for IDS Thru-Dialing

If the extension is known, dial the IDS code and give the operator the desired extension number. If the extension is not known, dial the IDS code and ask for information.

Telephone and Mail Service

Following is a list of local agencies served by Centrex and the Interdepartmental Dial Code System (IDS).

The "IDS or CENTREX" column contains IDS code numbers or Centrex direct-in-dial numbers which should normally be used for calls to the agencies listed.

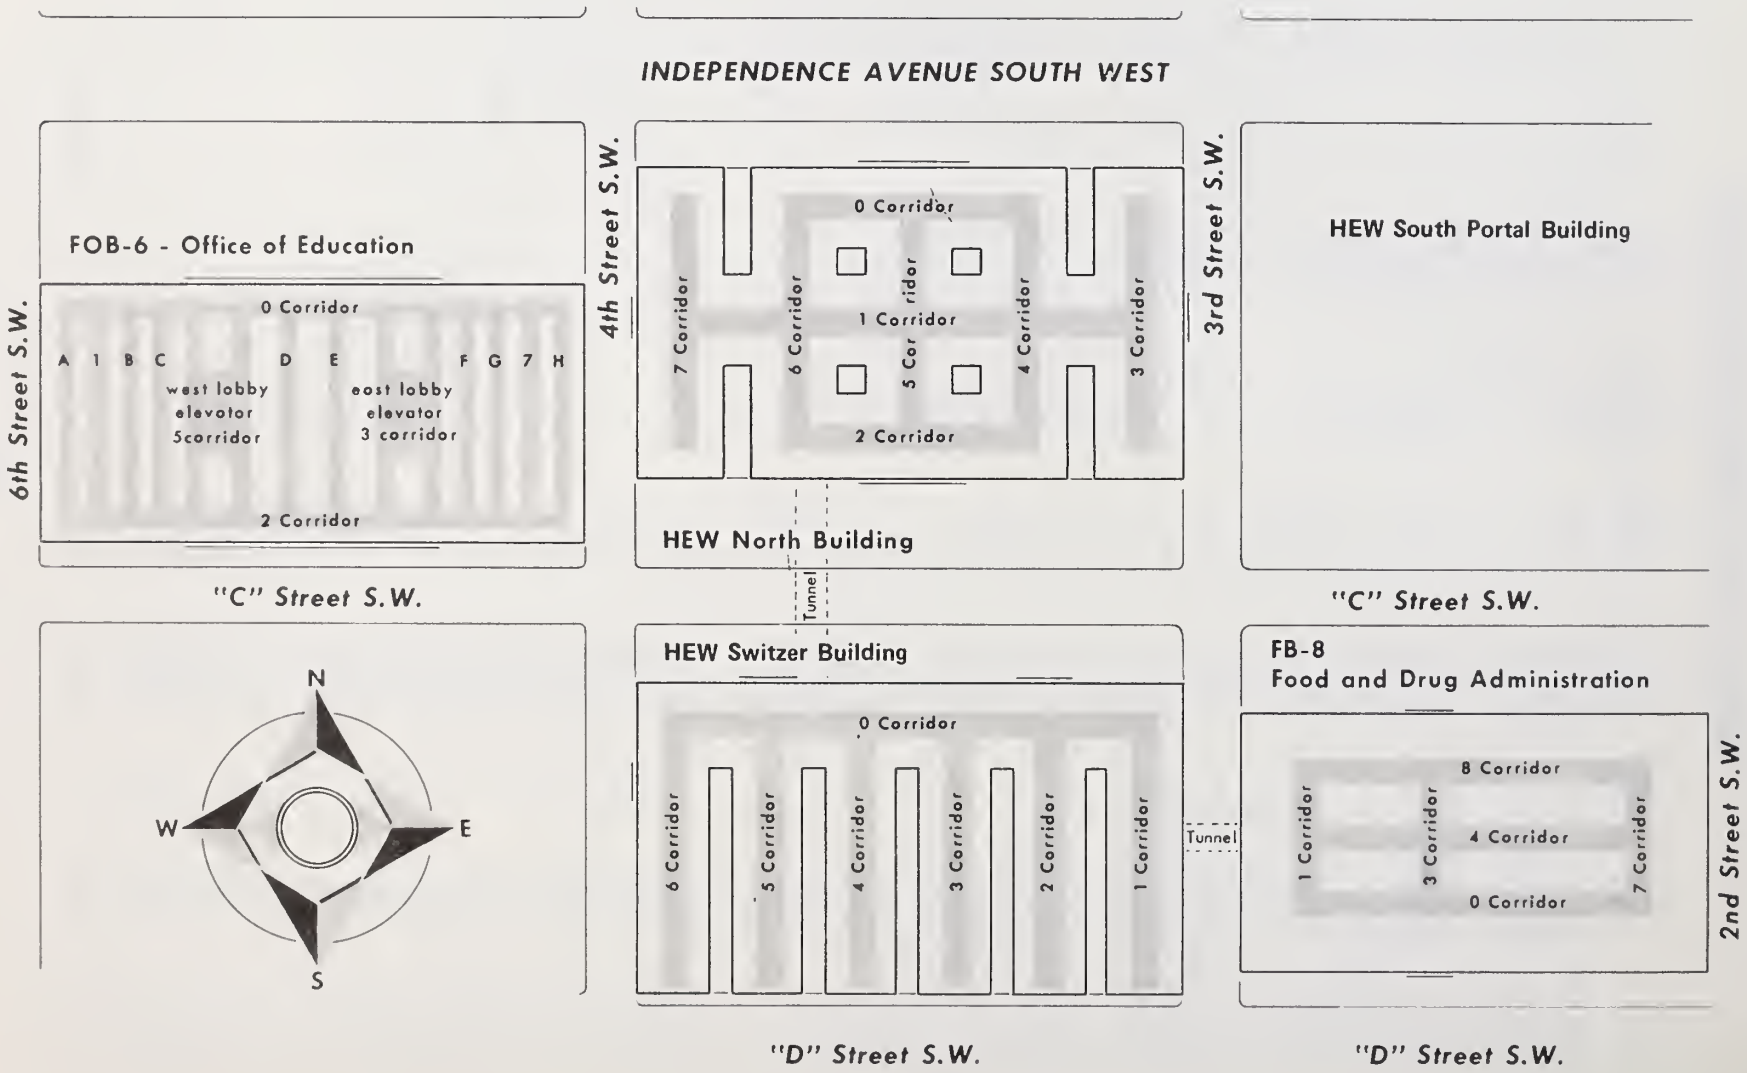
DHEW DOWNTOWN BUILDINGS



FEDERAL TELECOMMUNICATIONS SYSTEM (FTS) INSTRUCTIONS

I. GENERAL

The FTS Telephone Users Guide is written to assist users Nation-wide. Some of the instructions do not apply to the D.C. Metropolitan Area. Accordingly, the instructions have been re-written to reflect the informational procedures for use by FTS users in the D.C. Area and are included herein for your convenience.

II. WHEN TO USE THE FTS

The FTS shall be used by federal employees to make official long distance calls to Government and non-Government telephones across the Continental United States, and on a limited basis, to Alaska, Hawaii, Puerto Rico, and Canada. The FTS long distance telephone network is not intended for local area calling or short distance calls to non-Government telephones. A short-haul toll call placed over the FTS may travel over hundreds of miles of intercity circuits rather than over a few miles of local circuitry. As a result, FTS circuitry can become overloaded by uneconomical short-haul traffic for which the FTS was never intended. Currently, calls to non-Government telephones for which the charge for the first three minutes will be 50 cents or less shall be made via commercial facilities (dial "9").

When in doubt as to the proper facilities to use to place a short-haul call, contact your local FTS operator for assistance—(dial "0").

FTS calls placed during non-peak hours of the day help relieve strain on the system. The best hours to call are before 9 a.m., from 12 noon to 1 p.m., or after 4 p.m., depending on the time zone of the number you are dialing.

III. FTS CALLING PROCEDURES

Procedures for using the FTS Network to make a telephone call depend upon: (1) the location of the caller; (2) the location of the party called; and (3) whether or not the telephones of the caller and the person called are part of the FTS telephone network. The following instructions illustrate how to make different types of FTS calls.

IV. FROM AN FTS TELEPHONE TO AN FTS TELEPHONE (ON-NEW TO ON-NET)

—To call from one FTS telephone to another FTS telephone, dial the FTS access code "8" and the seven digit telephone number.

Example: You are calling from a Headquarters telephone. You want to call an FTS telephone in Ann Arbor, Michigan.

	Access Code	FTS Tel. No.
Dial:	8	123-4567

V. FROM AN FTS TELEPHONE TO A NON-FTS TELEPHONE (ON-NET TO OFF-NET)

—To place on-net to off-net calls, dial the FTS access code "8" and the 10 digit commercial telephone number.

Example: You are calling from your office, you want to call 123-4567, a non-government telephone in Fort Worth, Texas.

	Access Code	Area Code	Tel. No.
Dial:	8	817	123-4567

VI. FROM A NON-FTS TELEPHONE (OFF-NET 24 HOURS A DAY; SEVEN DAYS A WEEK)

–Washington, D.C. Metropolitan Area users may place essential official Government calls from commercial telephones by using the following procedure:

1. Obtain the correct number you wish to call
2. Dial the local number for the FTS operator, 554-2050
3. When you reach the operator, give your name, proper agency FTS identification symbol (special) and the telephone number you are calling.

VII. CALLS OUTSIDE THE CONTINENTIAL U.S.

FTS service is available on a limited basis to and from Alaska, Hawaii, Puerto Rico and Canada for FTS users authorized by their agencies to place such calls.

A. CALLS TO ALASKA

Dial the Seattle FTS operator, 8-399-0150. Furnish the operator your name, agency identification symbol and the telephone number you are calling.

B. CALLS TO ISLAND OF OAHU, HAWAII

Dial the San Francisco FTS operator, 8-556-0220. Furnish the operator your name, agency identification symbol and the telephone number you are calling.

C. CALLS TO PUERTO RICO

Dial the Washington, D.C. FTS operator on Inter-Departmental Dial System (IDS) Code 106. Furnish the operator your name, agency identification symbol and the number you are calling.

D. CALLS TO CANADA

Calls may be placed to Canada by dialing the associated FTS gateway switchboard, provided the equivalent commercial toll rate between your telephone and the gateway switchboard location is $1 or more for the first three minutes.

Furnish the FTS gateway operator your FTS telephone number and provide the commercial long distance operator with the number you are calling and your telephone number to which the call should be billed.

Canadian Area Code	FTS Gateway Switchboard	FTS Number
506, 709, 902	Bangor, ME	833-7271
418, 514, 819	Burlington, VT	832-6501
613	Syracuse, NY	951-3350
416, 705	Buffalo, NY	432-3311
519	Detroit, MI	226-6000
807	Duluth, MN	783-9692
204	Fargo, ND	783-5771
306,402	Helena, MT	585-5011
604	Seattle, WA	399-0111

VIII. DATA ON THE FTS

Consult the Telecommunications Management Official for your agency to obtain prior approval before using the FTS for transmission of data. This includes facsimile and any terminals which are to be acoustically coupled to the FTS. Agencies are required to report data usage on the FTS to GSA quarterly. Usage of the FTS for data transmission after duty hours (7 p.m. to 7 a.m.) and on weekends and holidays is provided without additional charge, assuming FTS service is already available and if approval has been granted.

IX. FTS INFORMATION

If you do not know the FTS telephone number of the party you want to call, dial your FTS access code "8" and the seven digit number for FTS information and assistance in the city you want to call. The FTS operator will supply you with the correct FTS telephone number to dial.

X. COMMERCIAL INFORMATION

FTS operators do not supply commercial or non-FTS telephone information. If you do not know a commercial telephone number, dial your commercial access code "9," the area code for the city you wish to call, and 555-1212. This will connect you with the commercial information operator, a service provided by the telephone company at no charge. After obtaining the correct commercial number, hang up and use the FTS to place your call.

XI. REPORTING FTS TROUBLES

To help maintain service on the FTS, users should immediately report any trouble with FTS service. Call the local FTS operator "0" and be prepared to supply the following information:

1. Your FTS telephone number, agency and location;
2. The telephone number and location of the dialed telephone;
3. Brief description of the trouble encountered, such as "noise," "echo," or "cut-off."

XII. FTS CONFERENCE SERVICE

Conference service is available to telephones connected to the FTS within the contiguous 48 states. Up to 28 intercity telephones may be connected to a conference call. A Conference Control Center, located in Washington, D.C., FTS number 245-3333, maintains all necessary conference control records and is the point of contact for all FTS subscribers using the conference facilities.

Conference calls should be scheduled as early as possible, but not less than three hours in advance of the desired time. The conference originator should call the Conference Control Center to verify the availability of the desired time and provide the following information:

1. Originator's name, agency and FTS agency identification symbol.
2. Date and time period for proposed conference.
3. Name, location, and FTS telephone number of each participant.

The Conference originator is responsible for informing all participants of the date and time period of the conference.

The nationwide conference facility is offered at a minimum charge as specified in the current GSA FPMR Bulletin. Further information can be obtained by calling the Conference Control Center.

XIII. EMERGENCY PROCEDURES

Although the telephone is one of the basic tools for conducting official business, telephone systems are not engineered to provide simultaneous service to all telephones in the same area. To minimize possible disruption to the orderly processes of government and to ensure that outgoing calls can be made by those officials involved with an emergency, each government employee must forego or drastically limit use of the telephone during an emergency condition.

When an essential call must be made during an emergency, the caller should strive to be as brief as possible in completing the conversation. Official business unrelated to the emergency should be delayed until demands on telephone facilities have subsided, or should be conducted by alternate means of communications.

Reduction of telephone usage during emergency conditions is the responsibility of each individual.
